ACHIEVEMENTS

Amov International Teleservices

- Exemplary Leadership Award of the Year - 2023
- Service & Operational Excellence Supervisor of the Year - 2020
- Service & Operational Excellence Supervisor of the Year - 2019
- Organizational Culture Change Team for Customer Experience of the Year - 2018

PROFILE

I'm a Software Developer with 1 year of experience in Frontend Development. I specialize in Javascript, HTML and CSS, creating responsive and user-friendly interfaces, dynamic web applications. I'm also expanding my expertise in TypeScript, Vue.js, and UX/UI design. On the backend, I use Git for version control and have intermediate experience with SQL Server. Currently, I'm pursuing a Software Development degree at UAPA University, set to graduate in less than two years.

WORK EXPERIENCE

Amov International Teleservices

2024 - PRESENT

Frontend Developer

Projects created:

- **Password Generator:** Created a tool for a company to generate and provide random passwords to users. (JavaScript, HTML, CSS)
- **Claro Office Locator:** Built a platform for Claro PR employees to find office locations and access service information. (JavaScript, HTML, CSS)
- **Company Phone Book:** Developed a directory where employees can search for colleagues by name, view their department, phone number, ID, and location. (JavaScript, HTML, CSS)
- **Academic Pensum Tracker:** Designed a system for UAPA students to track their academic progress, save scores, and manage upcoming subjects. (Vue.js, JavaScript, HTML, CSS)
- **Help Desk Center:** Created a platform to store frequently used links, track computers, and provide a training guide for new employees—reducing the need for paper-based training. (Vue.js, JavaScript, HTML, CSS)
- **Personal Portfolio:** Built a website to showcase my experience, CV, certifications, and personal information. (Vue.js, JavaScript, HTML, CSS)

Amov International Teleservices

2010-2024

- **Bilingual Technical Support** - Assisted customers with troubleshooting and resolving technical issues.
- **Bilingual Quality Assurance (QA)** - Monitored and evaluated customer interactions to ensure quality standards.
- **Bilingual Technical Support Supervisor** - Led a team of support agents, provided guidance, and improved service efficiency.
- **Help Desk IT Supervisor** - Managed IT support operations, ensuring smooth technical assistance for internal teams

APEC University
